### General F. D. Grant Says We Have Best Guns and the Best Ammunition.

NEW YORK, July 26.—"I have heard the rumors that the Krupps have built for Germany a wonderful new gun that will revolutionize modern warfare. I fore the aeroplane has a chance," said Gen. Frederick Dent Grant, who came from Chicago to succeed General Wood as commander of the department of the east yesterday. "I have looked over a new gun we've got down here at Governor's island and I believe the American gun is the most perfect gun in the world this minute. "I have also heard about a marvelous new explosive just put into service by the Japanese. I guess you'll find that this and the Krupp story are both war scares, because our naval attaches report that the marvelous explosive is only a picric acid compound which we have been shooting here for several years. "We've had the most powerful explosive of modern times waiting for guns strong enough to shoot it—for more than a dozen years. But nobody could devise the gun. Well, we've got the gun now and we're using the explosive in it and I dare say that those guns shoot the best and their gunners aim them straighter than any other guns are shot by any other nation in the world."

## ADS FRUIT LAX

Here is a gentle, never failing laxative which works upon the liver and bowels without griping or causing nausea or a worn-out feeling afterward. It does not upset the entire system, causing loss of appetite, great inconvenience and distress, but it acts like nature acts and you can take it any time during the day or night. It is one of the best remedies of the great American Drugists' Syndicate of 12,000 druggists, and entirely unlike any other laxative. In fact, next to a reputable physician's prescription it is the best laxative known.

Dr. L. R. Robinson, of Kansas City, Mo., says: "Your Castoria certainly has merit. It is not its age, its continued use by mothers through all these years, and the many attempts to imitate it, sufficient recommendation? What can a physician add? Leave it to the mothers."

Dr. Edwin F. Pardee, of New York City, says: "For several years I have recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."

Dr. N. B. Sizer, of Brooklyn, N. Y., says: "I object to what are called patent medicines, where maker alone knows what ingredients are put in them, but I know the formula of your Castoria and advise its use."

### DYRENFORTH ESTATE DOES NOT AMOUNT TO MUCH

WASHINGTON, July 26.—After having decreed in his will that his adopted son, Robert D. St. George Dyrenforth, should receive the bulk of his estate, providing the boy finished Harvard at 18, avoid women, remain a non-Catholic and fulfill a number of other cumbersome conditions, it now appears that Col. Robert G. Dyrenforth left little property.

Furthermore, his widow has filed suit to compel the reconveyance to her of a tract of land here, which appears to have been about the extent of Dyrenforth's possessions.

The land, which she claims is hers by right and which was conveyed for family reasons to a brother-in-law, is valued by her attorneys as worth between \$30,000 and \$35,000, but is encumbered to the extent of \$22,000. She knows of no other assets.

MOBILE, Ala., July 26.—According to information brought here on the steamer Toledo, sympathizers of Gen. Manuel Bonilla on Friday morning last attacked the barracks of the Honduras government at Puerto Cortez. General Meron, the leader of the revolutionists, and the commander of the barracks were both killed. The passengers on the steamer Toledo, that march law has been declared at Puerto Cortez.
